

Money Counts

Age-level: Daisy

Pillar: Life Skills

Badge Description: You can use money to buy things. You can use it to help other people, too. Find out more about money!

1. Understand different kinds of coins.
 - Fill a jar with coins, then take turns picking a coin out of the jar. Shout out the name of the coin and how many cents it is worth.
2. Know more about paper money.
 - One dollar is worth 100 cents. Make a pile of coins that add up to one dollar.
3. Find out the cost of fun.
 - Practice planning something you might to do that costs money. With your family, pretend you are going to the movies, going bowling, or going to a local fair. Ask an adult to help you write down two things that you'd need to save money for, and also to help you figure out how much the activity will cost.
